Discover the **old stone altarpiece** 10 m high, which has told the story of Christ for centuries; immerse yourself in the frescos of a church full of **mysteries and legends**; look for the Arab-Norman works of the city centre and finally, in our museum, wander among the remains of an **ancient cave** and of the ancient inhabitants of a **vanished sea**: this is where it all began.

In the **Madonie's Park** you'll find plenty of paths, including the one that leads to the highest Marian shrine in Europe, that will lead you to the discovery of rivers, rare trees and monuments of nature. Have fun visiting **Madonie's Adventure Park**, with its exciting treetop trails, or experience the thrill of **skiing in the middle of the Mediterranean sea**, in winter, in **Piano Battaglia** ski resort. Moreover, Petralia has been the first town in Europe to create an **urban geological path** (geopark) that will allow you to discover **ancient fossils** beneath your feet!

The **Holy Week**, with its mystic and traditional practices; the patronal feast of **Saint Calogero**, derived from ancient pagan rituals; the Pantomime Dance of Cordella, a propitiatory and thanksgiving rite; the **Festival Jazz Manouche**, an unique event in southern Italy; the Feast of the **Madonie's Autumn Flavours**, with its typical meals and culinary traditions.

Petralia Sottana is the only Sicilian town awarded by the **TCI (Italian Touring Club)** with the prestigious **ORANGE FLAG**, a symbol of environmentally-friendly tourism.
